EXPERIENCE

Intern at Zapplon,
Jun 2016 - July 2016

Worked on **Recommendation System** for cab booking for Zapplon app and BackEnd in Java. Also proposed and worked briefly on offline cab booking concept.

Text Document Summarization,
Feb 2016 - present

Working on Research Project "Text Document Summarization" using Graph Based Approach under college professor in a team of two. Our algorithm is for sentence abstraction from summary using weights and refining the outcome.

HACKATHONS

KRISE:
GEEK COMBAT HACKATHON

Our team of four won 'Best Idea' prize at Geek Combat hackathon(20 July). We developed and demonstrated our Hack "KRISE" which is an android application that can alarm people and save millions of lives at times of crisis. I worked on the Back End in Python and developed REST API that communicates with app.

MagicBot:
MAGICBRICKS BUILD-A-THON

Build a chatbot for "Messenger" app powered by text processing, nltk, and custom filters. Also build a powerful REST API in flask framework (Python) that integrates webhooks and communicates with facebook.

EDUCATION

Netaji Subhas Institute of Technology, Dwarka
